

Sharetru Federal for Tier 2 & Tier 3 Subcontractors

CMMC-ALIGNED FILE SHARING THAT'S AFFORDABLE AND COMPLIANT

Sharetru Federal is the only JAB-ATO FedRAMP'd MFT platform—authorized across **IaaS**, **PaaS**, and **SaaS layers**—that offers full CMMC reciprocity and optional unlimited user licensing. It's ideal for Tier 2 and 3 subcontractors needing cost-effective compliance for sending and receiving CUI.

Why JAB Authorization Is Your Advantage:

- Recognized across the DIB supply chain—removes barriers when bidding for contracts
- Future-proof your compliance without expensive IT builds
- Validated by the JAB across **DHS**, **DoD**, and **GSA**

To schedule a personalized briefing, request a live demo, or start a free trial in our FedRAMP-authorized environment:

Subcontractor Use Cases:

- Transfer CUI securely to prime contractors with full audit traceability
- Demonstrate compliance using Sharetru's reporting and logging features
- Avoid overbuilt systems—Sharetru provides exactly what's needed for CUI handling
- Set folder-level and user-level access without complicated training

Differentiators:

- Built for engineering collaboration at any scale—unlimited users on the Complete Plan, or start with 10 on the Core Plan.
- No file extension restrictions—easily share .pdf, .xlsx, .step, .dwg, and .zip archives used in subcontract workflows
- Native **SFTP**, **FTPS**, and **FTPeS integration** for secure large dataset transfers
- Clickwrap agreements, account lockout policies, and SIEM compatibility
- Secure file sharing without requiring teams to learn a new system
- Geo-blocking and IP-based access controls included
